

**Presentation Focus Questions:**

Your presentation should focus on these questions.

Feel free to go beyond what is stated here, but limit your presentation to 5 minutes.

---

**radon inhalation**

---

- 1) What is the specific decay series that produces Rn-222 & what does it eventually decay into?
- 2) What is the half-life of Rn-222 and what does such a short half-life mean in terms of its danger?
- 3) What parts of the US are especially susceptible to radon poisoning? Why these areas?
- 4) Why are people living in newer, energy-efficient homes at more of a risk than others?  
And what can be done to decrease their risk factor?
- 5) How do people find out if their home is at risk?
